Battle Stars and Naval Awards

by J.W. Perkins (1999)

This loose leaf 400+ page book is the primary source for the "war theater" dates shown in the third column of this data sheet list. He performed research at the National Archives and various military libraries to collect his data. Perkin's book covers World War II and Korea but not Vietnam.

Navy Historical Center: Korean War Medal Web Page

This extensive web site lists all the units that were awarded the Korean Service medal between 1950 and 1954. The ships on the data sheet list were checked against this site's list and corrections and additions made.

Web Site Address: www.history.navy.mil/medals/kormedal/

Dictionary of American Fighting Ships:

DANFS is an eight volume set of NHC hardcover reference books found in major libraries and was on sale at the US Government Printing Office. This fine source gives summary detail of each ship's voyages/battles, but does not list every date and place for many of the vessels. Korean War entries were checked against DANFS when discrepancies were noted.
